Good afternoon Victoria,

I will shortly be trying to have a look at the latest submission but it strikes me that it is impossible to know from the content of this if our long term concerns have been considered without being aware of the "agreed approach" resulting from a meeting on October 13 2017.

Are the minutes of that meeting contributed by Martin Wheeler of WSP now in the public domain or are they confidential ?

A first glance at the sparse submission does not suggest that anything at all has been absorbed !

Incidentally, talking of minutes, were minutes from our meeting of Friday July 14 2017 ever made available ?

I did ask the question at the time before the meeting and was assured it would be minuted and I asked again after the meeting.

If they now exist I never saw them.

I ask because I believe the minutes of both meetings should be easily available for public scrutiny as this issue has long ago moved way beyond a run of the mill planning application and private agreements.

Best wishes,

Rod
